BURIAL OF JOHN PAUL JONES APRIL 24

Big Fleet of War Vessels Will Participate in Ceremonies at Annapolis.

Special to The Journal.

Washington, D. C., April 18.—Vessels of the second division of the Atlantic fleet comprising the Alabama, flagship; the Illinois, and Iowa under command of Rear Admiral C. H. Davis and the Minneapolis, flagship; Cleveland, Denver and Des Moines commanded by Rear Admiral R. B. Bradford have been ordered to Annapolis, Maryland to participate in the ceremonies of the burial of the remains of John Paul Jones April 24. The French men of war which will take part in the ceremonies comprise a special squadron of cruisers in command of Rear Admiral Brevoe de la Peyrere. This is the squadron which was sent to Fort de France, Martinique, some months ago when France threatened Venezuela for its treatment to the French charge de Affaires, M. Taigny. In this squadron are the Desaix, flagship; Jurien de la Graviere and the Troude. The complement of this squadron is about 1,200 officers and men.

Requisition for 30,000 pairs of low shoes of the Blucher type has been approved by the Navy Department. The shoes will make a considerable improvement over the old style of low shoes which have been in the naval service for many years. The Navy Department has also approved a requisition for 100,000 pairs of socks. These are of a new make of cotton and wool and will replace the heavy woolen ones now in the navy. In color the socks will be black and will be of a lighter weight than those now used. Hereafter the white socks will be abolished and only black ones will be worn by the enlisted men.

The changes proposed in the Massachusetts will follow the line of alterations made on the Indiana and the estimated cost will be \$1,000,000. The work will be done at the Brooklyn yard.

A contract for the construction of a wharf 300 feet long and 70 feet wide at Guantanamo to be of iron and concrete has been let to Snares and Triest. The wharf is to cost \$145,980.

Counterfeiting the Genuine.

Foley & Co., Chicago, originated Honey and Tar as a throat and lung remedy, and on account of the great merit and popularity of Foley's Honey and Tar many imitations are offered for the genuine. These worthless imitations have similar sounding names. Beware of them. The genuine Foley's Honey and Tar is in a yellow package. Ask for it and refuse any substitute. It is the best remedy for coughs and colds. W. A. D'Alemberte, druggist and apothecary.

BROWNE NOT A CANDIDATE

WITHDRAWS FROM RACE FOR RAILROAD COMMISSIONER OF FLORIDA.

The following card has been issued by Jefferson B. Browne:

To the Democratic People of Florida: When I became a candidate for Railroad Commissioner four years ago it was not my intention to stand for re-election, and I was steadfast in that determination until a few months ago, when I began receiving letters from a number of fair-minded and conservative men who knew of my intention, setting forth reasons why I should again run. Then the Democratic Executive Committee of my own county, for whom I have the highest esteem, passed a resolution unanimously urging me to be a candidate. This, and the letters received, caused me for a time to waver in my purpose, but after mature deliberation I am convinced that I am right in not again being a candidate for the office which I now hold.

I believe in the sound old Democratic doctrine of rotation in office, and I have followed it all through my political career, never having been a candidate for re-election to any public office.

I am fully in accord with the principles enunciated by President Andrew Jackson in his first annual message to congress, in which he says:

"The duties of all public officer are, or at least, are capable of being made, so plain and simple that men of intelligence may readily qualify themselves for their performance; and I cannot believe that more is lost by the long continuance of men in office than is generally to be gained by their experience."

I have served the state as Railroad Commissioner at considerable pecuniary sacrifice, having given up a lucrative law practice, which I now feel that justice to myself calls upon me to resume, and in retiring from office I wish to thank the people of the state for the very handsome vote which they always give me whenever I have been a candidate for office, and for the flattering assurance of support which I have received from all parts of the state.

JEFFERSON B. BROWNE.

MEDICINE, PAST PRESENT AND FUTURE

(Continued from Page Two)

cannot be the same as when the patient was supposed to be "possessed by conflicting humors," or, "to abnormal increase of vital fluids," or, "waves of some sort," or God knows what. With the exception of only a few diseases, we have at the present no medical specifics. Yet the advanced school of the present, has not divorced itself from medicine, but as Osier recently said, "It seeks to study thoroughly and apply scientifically the few real medicines which must be used instead of a swarm of dubious and varying materials that are inert and practically worthless." Moreover, we do not feel called upon to give any medicine at all. More and more we are learning what Rush believed, and failed to put into practice. That is, a return to normal conditions, pure air and water, diet and exercise. In other words, we are giving Nature a chance.

I feel that I have already kept you here too long, but I cannot let you go until I have said a few words as to our future.

Experience has shown that "an ounce of prevention is worth a pound of cure," and the day is not far removed when the professional mind will be occupied with the questions of preventive medicine and immunity through serum inoculation. Vaccination, the Pasteur treatment for hydrophobia, diphtheria, antitoxin, have already shown us the way. Serums for streptococcal infections that is pus infections are being used, with good results every day, as are also serums for lockjaw, bubonic plague and pneumonia, though the latter have not been of as much benefit as the others mentioned. I believe as firmly as I do that I am addressing you tonight, that the cause of all disease will be discovered, and when that great day comes, let us hope that it may be our province, not only to alleviate the sufferings of humanity, but to prevent them entirely.

S. R. MALLORY KENNEDY.

MISS GYSEY MORRIS GIVES LAST SOIREE TO-NIGHT

Miss Gypsy Morris will give her closing soiree to-night at the C. K. of A. Hall, at 8 o'clock. There will be a pleasing program of fancy dancing, etc.

STOP DRINKING

ORRINE WILL DESTROY ALL DESIRE FOR WHISKEY OR BEER—A GUARANTEED CURE

Nearly every drinking man thinks that sometimes he will quit. He often swears off, but can not resist the craving for drink, and the disease, for this is what it really is, becomes so firmly fixed that it cannot be cured without medical treatment.

A Michigan druggist, H. G. Coleman, has made a thorough study of the various cures for the liquor habit and gives this as a result of his investigations: "Before taking the agency of Orrine, I went to considerable trouble to learn about it and became confident that it was a thoroughly honest preparation and put out by a honorable firm. I have sold it for years and can truthfully say that my confidence in it grows stronger the more I see of its results. I believe that any man who really desires to be cured of the liquor habit can cure himself with the help of Orrine and be rid of the bad effects which the habit has upon himself and family."

Orrine is in two forms. No. one the secret remedy which can be given without the knowledge of the patient; No. 2 for those who take the remedy of their own free will. A cure is absolutely guaranteed with either form of treatment. Write for free pamphlet on the cure of alcoholism to the Orrine Co., Washington, D. C. In every box is a registered guarantee which entitles you to a refund of your money if Orrine fails to effect a cure. The price of either form is \$1 a box. Orrine is for sale by Whites Pharmacy, 106 South Palafox St.

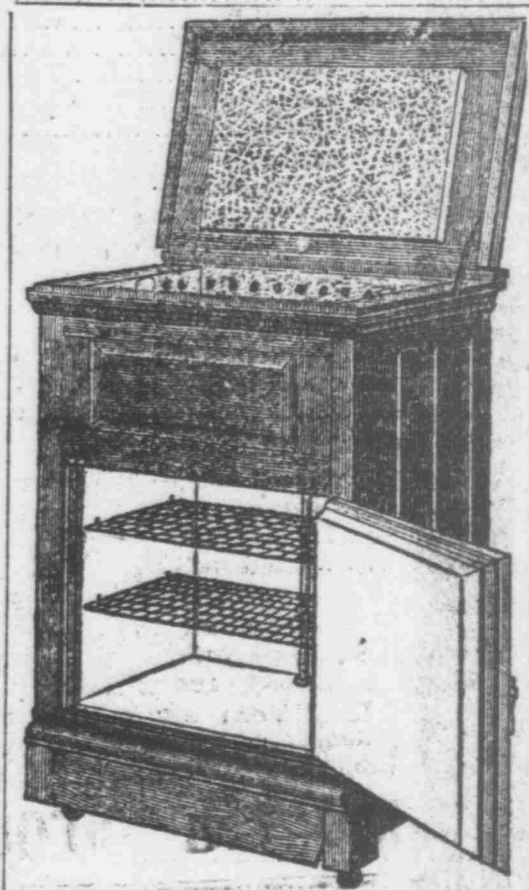

TAKE IT TO PIECES!

IT'S no trouble with the WHITE MOUNTAIN REFRIGERATORS. You can open the ice chamber and take it out; take out the ice grate; take out the provision shelves and take out the waste pipe without opening the lower door. It's so easy to clean them, it's actually a pleasure. DO YOU KNOW that this means a Refrigerator that's easy to clean as a tumbler? The circulation is perfect and it is absolutely odorless. In the WHITE MOUNTAIN you will always have a Refrigerator that's as clean and sweet smelling as when it left our store. This is a peculiarity of the WHITE MOUNTAIN line that you won't find anywhere else.

You Make Your Money Back

The WHITE-MOUNTAIN Refrigerators are air tight, cold and dry. This causes a saving in ice during the season that would astonish you if reduced to dollars and cents. Just try a WHITE MOUNTAIN, and after a month or two compare your ice bill with those you used to pay. The money you are putting in ice NOW will buy you a new Refrigerator. For the class of the article the price is lower than you would think.

We Have Them Up from

\$7.50 to \$60

Cut Shows One for

\$17.50

The Cleanest Imaginable

Refrigerator is the STONE WHITE of the WHITE MOUNTAIN line. It is built on the well-known principals of the cold-retaining properties of stone, and the doors and entire provision chambers are lined with pure white stone, not imitation, but REAL SOLID STONE. It is the coldest, cleanest, prettiest, as well as the most economical Refrigerator made. Our cut shows one at \$40, but we have them all prices up from \$25.

If not convenient to pay cash, tell the salesman to "Charge it."
